Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	**Stage 1**	**Stage 2**	**Stage 3**
Actions *What does the customer do?*	• Registers profile on Health360 platform. • Connects IoT wearables/sensors. • Completes baseline clinical health assessment	• Wears IoT sensors daily • Tracks vital signs (HR, SpO2, BP) on mobile dashboard. • Receives automated anomaly notifications.	• Consults cardiologist upon alert. • Follows prescribed medication and exercise plan. • Reviews monthly health progress reports.
Touchpoint *What part of the service do they interact with?*	• Mobile App Onboarding Screen • Bluetooth Sensor Pairing UI • User Profile Settings	• Live Vitals Monitoring Dashboard • Automated Alert SMS / Push Notifications • Snowflake Data Pipeline	• Doctor Consultation Portal • Prescribed Treatment Plan View • Downloadable Health Summary PDF
Customer Thought *What is the customer thinking?*	• "How easy is it to sync my medical devices?" • "Is my personal health data securely encrypted?"	• "Are my vitals normal today?" • "Why did I receive an alert about my blood pressure?"	• "How effective is my new fitness routine?" • "Will this preventive care lower my long-term risks?"
Customer Feeling *What is the customer feeling?*	Curious, slightly apprehensive about tech setup.	Reassured by continuous tracking, alert when anomalies occur.	Empowered, confident, and motivated to maintain healthy habits.

Process Ownership *Who is in the lead on this?*	Patient / Onboarding Support Team	IoT Gateway & Automated Snowflake Analytics Engine	Lead Cardiologist / Clinical Care Team
Opportunities *How can we improve this stage?*	• Simplify IoT pairing with one-click QR code scanning. • Add interactive guided setup tutorials.	• Reduce false-positive alerts using advanced ML filtering. • Provide instant AI-driven vital sign explanations.	• Integrate direct in-app video telemedicine consultations. • Offer gamified rewards for meeting exercise milestones.
